Army Jobs Held

Signal Support Systems Specialists (25U), Natick, MA
[September 2013](#) – [July 2016](#)

Overview

Signal support systems specialists are primarily responsible for working with battlefield signal support systems and terminal devices. This equipment needs to consistently

work in order for the Army to direct the movement of its troops.

Job Duties

- Maintain radio and data distribution systems
- Perform signal support functions and technical assistance for computer systems
- Provide technical assistance and training for local area networks
- Maintenance for equipment, terminal devices, assigned vehicles and power generators

Cannon Crewmember (13B), El Paso

[July 2016](#) – [February 2018](#)

Overview

Cannon crewmembers work the howitzer cannons that support infantry and tank units during combat, and play crucial roles in the Army's success on the battlefield.

Job Duties

- Wire and radio communications
- Identify target locations
- Operate self-propelled howitzers, ammunition trucks and other vehicles
- Participate in reconnaissance operations
